

Enlighten your outdoor living space with Lite the Nite low-voltage landscape lights from Willow Creek. Select from Pathlights, Downlights and Uplights to add illumination and a measure of safety to any outdoor space. Lite the Nite landscape lights feature solid brass construction with a bronze finish. Each light consumes from 2.5 to 7 watts. These lights can be powered from either a DC or AC source. Lite the Night LED landscape lights make it easier to maintain more consistent light levels than incandescent, with simplified installation, layout and the ability to allow long cable runs with more fixtures.
